Key Specifications

Specification	Details
Power	1500W PEP
Connector	SO-239
Coverage	DIPOLE: 2-40M VERTICAL: 10-20M plus 220/440 MHz
Max deployed dipole weight	80 oz
Packable antenna size	24 x 4.5 in
Wind	up to 35 mph when guyed; 15 mph otherwise

Best For

- Portable HF/VHF/UHF operation
- Field use needing an included tripod
- Dipole and vertical configurations
- Efficient QRP and High-power portable operations

What’s Included

- HexTenna antenna components
- Survivor Tripod + adapter for 1 1/4 inch mast
- Non-padded bag
- Wire/counterpoise components detailed on product page

Setup and Operation

Adjust telescopic elements for resonance and guy the system. Included tripod provides a ready field mounting solution.

Analysis

Download the Scans for the AntScope application: **Download Scans here**

DIPOLE CONFIGURATION		VERTICAL CONFIGURATION	
Band	SWR	Band	SWR
2 Meters	1.01:1	440 MHz	1.39:1
6 Meters	1.2:1	220 MHz	1.1:1
10 Meters	1.15:1	10 Meters	1.65:1
12 Meters	1.6:1	12 Meters	1.23:1
15 Meters	1.43:1	15 Meters	1.29:1
17 Meters	1.49:1	17 Meters	1.49:1
20 Meters	1.48:1	20 Meters	1.38:1
40 Meters	1.65:1	–	–

Options

* 10-80M Options: MIL 2.0 Auto Match and Delta Loop components.

Compatible accessories: Coax, padded bag.

* An external antenna tuner should be used if the antenna system is deployed over a poor ground or not placed in a clear area.

2-40M + 220/440 MHz HF VHF UHF Antenna + Tripod

Verified review - view original

This antenna works so well I thought my radio was broken!

I have now taken it on 3 POTA deployments. I really wanted to put it through its paces before I did a review.

It did so well on 20m, with such a low noise floor, I thought my radio settings were wrong and my attenuator was on max. Nope, just an excellent antenna.

Consistently able to get this antenna deployed and tuned to below 1.1:1 in less than 5 minutes. That’s incredibly hard to beat. Obviously audio reports are subject to the propagation gods, but I have been getting great reports as far as California and across the Caribbean from Central Florida. The tripod has 100 different uses and configurations as well.

10/10 recommend!

2-40M + 220/440 MHz HF VHF UHF Antenna + Tripod

Verified review - view original

I’ve really enjoyed using the HexTenna. It’s easy to set up, packs down well, and has worked great with my G90. One thing I also appreciate is that Alpha Antenna cares about making amateur radio accessible to everyone. As a veteran with a hearing-impaired wife, I especially appreciate the company’s commitment to accessibility and ADA-focused design. I respect companies that support service members and work to make this hobby available to as many people as possible. Thanks for making a great product.

2-40M + 220/440 MHz HF VHF UHF Antenna + Tripod

Verified review - view original

I have not had a chance to use the antenna yet, but the construction is very robust and since I picked up the antenna directly, the people at the company were fantastic to work with. Cannot recommend their products enough.
