Perfect for ruggedized transportation of either Alpha's:

1. 6-80M MIL 2.0 antenna or the
2. 100W VHF UHF HF EmComm MagLoop.

The MOLLE bag is a top of the line, secure and rugged equipment carrying solution. MOLLE stands for Modular Lightweight Load-carrying Equipment. Its modular design allows you to securely weave the straps of compatible bags into the MOLLE's webbing. This means that equipment bags stay exactly where you place them, and weight is distributed evenly across the body.

MOLLE is the standard of units across the globe, and is also ideal for backpackers, travelers, and emergency response kits. The MOLLE field bag allows you to set up your equipment kit and never worry about it. Its secure fit means that equipment will never flop around and get damaged, and with customizable placement you can ensure that equipment is within reach and able to be easily deployed.

This field bag is the perfect complement to any of our lines of Alpha Antenna equipment.

Size: 7.1×3.5×9.4 inches (LxWxH); 1.79 Pounds

3 front pockets – 1 rear pocket – 3 internal pockets

The largest pocket is the front pouch at 9.3 inches tall x 7 inches wide
