The MTM-705 is a Masted Tripod Mount for the ICOM AL-705 Antenna that supports your antenna on windy days while mounted on any of our Tripods with a 1/4 20 Male thread.

Just use the two screws that were already included with your AL-705 to install the Back Plate to your tuning box.

Extremely rugged and very light at 4.8 ounces, which breaks down to just 15 inches long and includes:

2 – 11 inch masts

1 – Mast extension adapter

1 – Top of mast Double Coax adapter

1 – Mount for tuning box

**NOTE – When you received your Icom AL-705 antenna you received the following AL-705 Parts Bag, which you will need for installation of this item.**
