The MOTO Riser Kit is particularly useful when mounting the mobile MOTO AutoMatch to various mounts.

Specifically, the Riser Kit for the MOTO antenna so that it will fit on the Diamond K9000, the Alpha Jam Mount, or other mount with a mounting hole that has an inside diameter of 1/2″ to 3/4″. This kit consists of a long hex nut that is secured to your mount with a stainless-steel bolt, using the additionally included lock washer and two flat washers.

Usage Example

The only place I can find this length! Perfect for mounting to Military 2.0 on the balcony clamp and/or a tripod.
